

# Updated TRM6/7/800 service materials

**Applies to**

TRM6/7/800s

**Purpose**

This message is to announce updated service materials for the TRM6/7/800 units.

Videos for Lift System testing, calibration, and replacement, Motor testing, MCU fan replacement, and deck and belt changes for the legacy and common frame are now available in the service manuals and on the [Connect video page](#) to better aid technicians servicing Precor equipment.
